
Radio Control

RC1
(1 key)

RC2
(2 keys)

The radio control is available on request for the weight indicators equipped with StarBus output.

It allows to zero the displayed value in order to control the quantity being loaded or unloaded more easily and to recall the total.

For the programmable weight indicators, the radio control allows to restore the set weight.

TECHNICAL FEATURES

Frequency: 433 Mhz

Power supply: alkaline battery 12 V (type 23A)

Supply current: 10~15 mA

Working temperature range: -10 / +55 °C

Dimensions: 65,5 x 37 x 15 mm

Max operating distance: 20 metres

REGULATIONS

The transmitters are in compliance with the European regulations ETS 300-220, ETS 300-683 and EN 60950.
